

Way Systems show case MTT/MTB for the ASOCIO-APICTA Singapore 2007

Singapore, 21st November 2007

Way Systems Solutions is honored to be invited to showcase our Mobile Transaction Terminal (MTT) to the delegate attending the prestigious Asia Pacific Information and Communication Technology Alliance (APICTA) Award Event and ASOCIO ICT Summit.

For the first time in history, Singapore will play host to both the 7th international APICTA Awards and ASOCIO ICT Summit from 26–29 November 2007. Held concurrently for the first time, the combined events will spark off synergy in the areas of technology exchanges, ICT innovation and creativity, trade partnerships and opportunities for the ICT industry.

Mobile Transaction Terminal (MTT) was designed to help companies with credit card payment transaction without boundaries by providing secure efficient Business payment gateway platform.

“We are pleased to participate the showcase with HP at its cooltown. Further to our nomination and participation in the APITCA at ChangMei, Thailand, we are please to play host to the delegates on our latest solution,” said Michael Ng, Managing Director for Way Systems Solutions Pte. Ltd.

Mobile Transaction Terminals are now used in the Taxis, mobile merchants, B2B Biz transaction in the Asia region and USA.
